## Roll a Magritte

You will need...

- dice
- paper
- pencil
- COLOURED PENCILS/ felt tips/ paints/ Crayons

Roll the die and use the table to help you draw your own Magritte inspired work of art.

Each time you roll, a different part of the face can be added to your drawing. Each number on the die tells you what shape to add.

Try playing with a member of your family – how are your pieces different?

Add colour to complete your art.

Have fun!

## Make a Toast Sculpture

What you will need...

- bread
- cocktail sticks
- knife/ scissors
- Golden syrup (optional but can be used as glue)

1. Spend a few minutes sketching your ideas. You don't have to stick to your plans but it's good to have a starting point. You can draw anything you like, you can make the decisions. What shape would the houses in your made-up world be?
2. Start with about four pieces of toast; you can cut them into a smaller size or join them together to make larger walls.
3. Try to think beyond the average size and shape of a piece of toast; is your building long and thin, or round and squat?
4. Try bending the toast to make curves and twists, or cut it into small pieces for bricks, steels, beams or cladding.
5. You could use pastry cutters or bottle tops to cut windows and doors; they don't have to be squares and rectangles, they can be circles or hearts!
6. Attach the toast together by pushing cocktail sticks through both pieces. Snip off the ends of the sticks if they are poking out if you wish. Flat pieces could even be stuck on with a little golden syrup, but use sparingly.
